

CLASS NUMBER AND NAME:	<b>CMN127B—INTRODUCTION TO WORD I</b>
TOTAL HOURS/UNITS:	24 HOURS/1 UNIT
PREREQUISITES:	CMN127A-Beginning Keyboarding or net speed of 25 words per minute
TEXT AND MATERIALS:	<i>College Keyboarding &amp; Document Processing, 11<sup>th</sup> Edition</i> , Ober, Johnson, and Zimmerly; McGraw Hill, 2010 (ISBN 9780077356606)
CLASS DESCRIPTION:	This class includes creating letters, memos, reports, and tables using Microsoft Word.
CLASS OBJECTIVES:	The student will create complex letters, memos, and tables.
CLASS FORMAT OVERVIEW:	This is a lab. Lab time is spent completing assignments using software.
REQUIREMENTS:	Time spent in preparation for or reflection on course lecture will approximate two hours outside of class for each lecture credit hour utilized by the instructor in delivery of the material and ¼ hour outside of class for each hour of structured lab time.
METHOD OF INSTRUCTION:	Students are required to turn in all assignments (lessons) as outlined on the attached assignment sheet. All word-processed documents must be completed to a mailable level (3 or fewer errors per document).
ATTENDANCE:	It is expected that each student will be in class when class begins every day. Roll will be taken at the beginning of class. Should it be necessary for a student to be late to class or to leave early, the student should notify the instructor ahead of time; it will then be up to the instructor to decide if the student will be counted as present. The instructor's decision will be final.
TESTING:	After all lessons have been successfully completed, there is a test after lesson 40. It is expected that the student will complete each portion of the test in 15 minutes or less with zero errors. The student must complete all assignments and the test by the end of the module to receive a passing grade. To test out of the class, the test (each section within 15 minutes and 0 errors) and the timing must be monitored by the scheduled instructor, completed in one class, and done within the first three days of the module as determined by the instructor. In addition, it must be checked by the grader for authenticity.
LATE WORK OR TESTING:	There will be a 10% penalty for all late work and testing. If the work or test is not completed within the scheduled module, all assignments and/or test(s) must be resubmitted for grading.

## CHEATING:

“Empire maintains a code of conduct for students that prohibits passing another student’s work as their own.” If students submit duplicate work or work on another student’s file, all students will receive a failing grade for the class. The school’s Code of Conduct and Cheating Policy will be enforced.

The GDP software has a dishonesty detection system so using another student’s work will be detected by the software. If a student submits another student’s work, both or all of the students will receive failing grades.

## GRADING POLICIES:

The final grade will be PASS/FAIL. To receive a Pass, all Assignments and Lessons and the test **MUST BE COMPLETED** as specified in this syllabus. Some assignments, as stated in the outline, must have 3 or fewer errors to receive a passing grade. If a student has more than 3 errors on a document, he or she must edit them until the errors are 3 or fewer. In addition, two 5-minute timings with 10 or fewer errors must be completed. In addition, all of the student’s work must be checked online by the grader to ensure the assignments were completed as listed in this syllabus and the original work was completed by the student.

## FINAL GRADE:

The student must submit the signed checklist to the instructor for review and the instructor must submit it to the grader. The grader must check the student’s online file to assure all work has been completed as listed on the syllabus and the student did not use another student’s work (as the software detects dishonesty). Since this is a Pass or Fail class, all work must be completed according to the grading policies to receive a passing grade. A final grade will be issued after all assigned work has been successfully completed and reviewed by the instructor and grader.

## ANTICIPATED LEARNING OUTCOMES:

Upon completing this course, the student will:

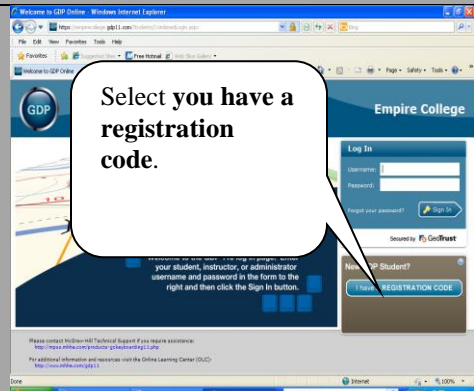

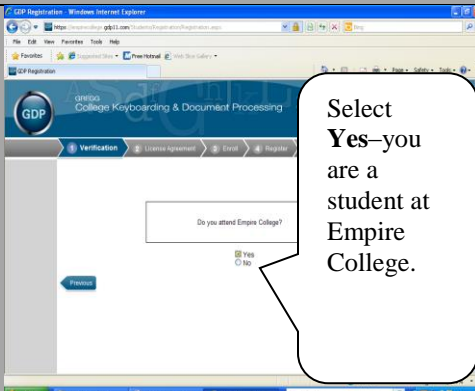

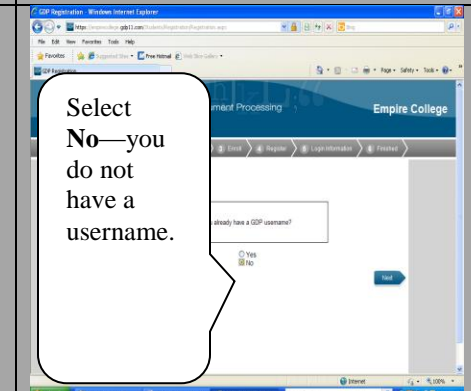

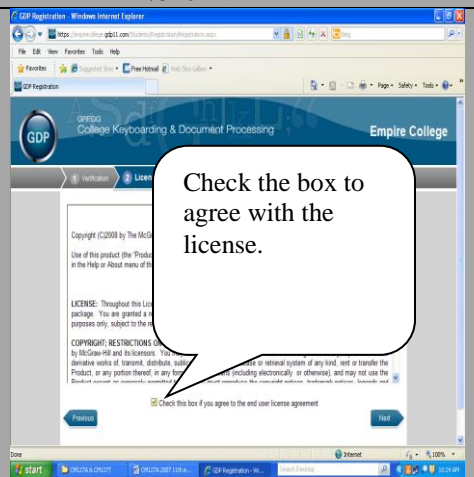

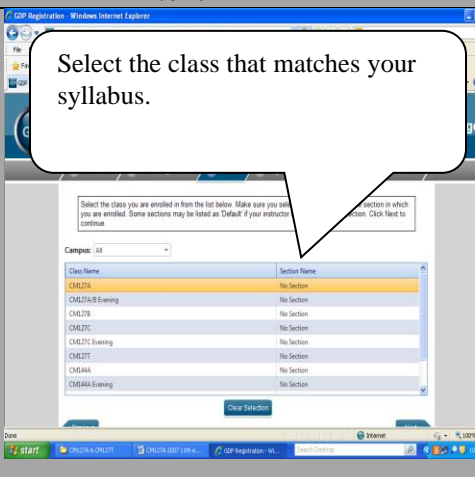

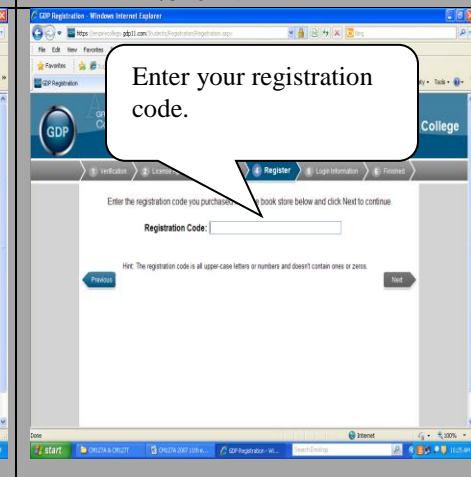

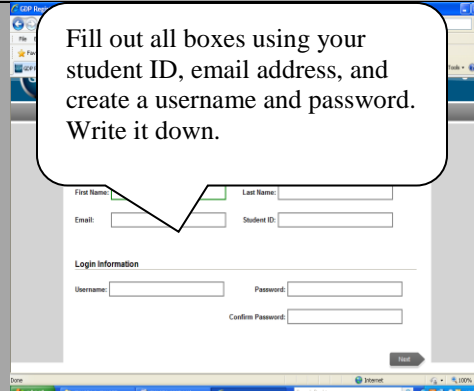

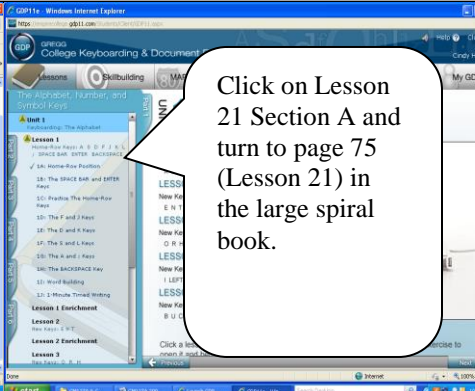

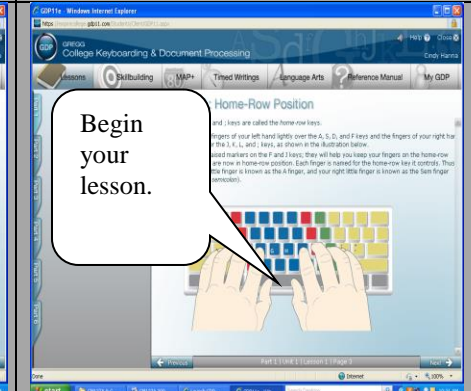

1. Demonstrate the ability to type letters, reports, tables and memos from a rough draft.
2. Be able to center a table both vertically and horizontally and format the cells.
3. Be able to type with no more than 6 errors on a three-minute timed writing and no more than 10 errors on a five-minute timing.
4. Be able to use spell check, grammar check, and change margins.

This must be done in a scheduled computer lab with a scheduled instructor to receive credit. Your instructor must know you are working on this as he or she must verify the speed on your screen. Please ask your instructor for assistance.

### VIEWING YOUR PROGRESS AND SCORING WORD PROCESSING DOCUMENTS

- Select My GDP to view your Portfolio. **Your instructor will be signing, dating, and recording your errors for all of your word processing documents**. Please see attached check-off sheet. # GDP RECORDING AND SCORING TIPS

<b>GREEN</b>	GDP thinks there is a missing word. Add what is in green.
<b>BLUE</b>	GDP thinks there is an extra word. Take out what is in blue.
<b>RED</b>	<p>GDP thinks there is something misspelled. This may include:</p> <p>Spelling errors:            Check for words ending in ‘ed’, ‘s’, ‘ing’, etc.</p> <p>Punctuation:                Check capital letters, commas, etc.</p> <p>Spaces:                        GDP attaches the space after a word as part of the spelling of that word. Make sure you have the right spacing. Use the ¶ button on the toolbar in Word to see all of your ‘hidden characters’, which include spaces and paragraph marks.</p>
<b>HYPHENS</b>	<p>If you’re getting an error with a hyphen, first check your syllabus for directions, otherwise try a different version of the hyphen:</p> <ul style="list-style-type: none"> <li>• Simple hyphen - press the key above the P.</li> <li>• Long dash — press [Ctrl] + [Alt] + [minus on the 10-key pad]</li> </ul>
<b>TO CORRECT ERRORS</b>	<ul style="list-style-type: none"> <li>• <b>Page Numbering</b>—In exercises where there is to be a Page Number inserted, it needs to be done as follows: <u>Insert</u>, <u>Page Number</u>, <u>Top of Page</u>, select <u>format 3</u> (right aligned on top), then click on <u>Different First Page</u>.</li> <li>• <b>Table Borders</b>—In exercises where the table needs to have certain borders, even when the student seems to have done it correctly, GDP marks it wrong. Select the entire table, remove all the borders, and then insert borders one by one.</li> <li>• <b>Font Size</b>—There are a number of lessons working with tables that require the formatting to have 12 point font for the content of the table and 14 point font for the heading of the table. Select the entire table, apply 12 point font to the entire table, and then select the heading and apply 14 point font.</li> <li>• <b>Memos</b>—Lessons involving Memos should have all the side headings (i.e. Memo, Subject, etc) in BOLD, <i>including</i> the colon.</li> <li>• <b>Reports</b>—Reports with side headings under major headings need to be in BOLD, <b>INCLUDING</b> the Period that follows.</li> </ul>

**\*Remember to read all the instructions! Your syllabus has sections to skip!**

# GRADUATION SPEEDS

Two 5-minute timings with 10 or fewer errors, which net the speed (or better) for the major are required. Net typing speed is calculated by subtracting the number of errors from gross speed. **Timings must be completed at Empire College on two different timings in a scheduled computer lab and witnessed by a scheduled instructor.**
