REQUIREMENTS:

Time spent in preparation for or reflection on course lecture will approximate two hours outside of class for each lecture credit hour utilized by the instructor in delivery of the material and ¼ hour outside of class for each hour of structured lab time.

METHODS OF INSTRUCTION:

As direct supervision of work and the personal discussion of challenges and solutions are used as the principal means of instruction, it will be expected that all students will be present every day to work on assigned correspondence. Assignments will be given in addition to correspondence; therefore, it is important to student success to attend all class sessions, particularly seminars.

CLASS ATTENDANCE:

If a student's overall attendance falls below 80 percent of if he or she is behind 2 letters, the student must be rescheduled for the class.

It is expected that each student will be in class when class begins. Roll will be taken at the beginning of class. Students must be in class before 10 minutes after the class hour starts to be counted present for the class. Students may not check into class before class begins.

Should it be necessary for a student to be late to class or to leave early, the student should notify the instructor ahead of time; it will then be up to the instructor to decide if the student will be counted as present. The instructor's decision will be final.

TESTING:

A final exam and a final project will be given in this class.

LATE TESTING:

A 10 PERCENT PENALTY WILL BE ISSUED FOR ALL LATE TESTS. If a student is not present on the day of a test and has not made arrangements with the instructor to take the test early, the student will automatically be given a 10 percent penalty.

GRADING POLICIES:

The point assignments are based on the following per error:
